

➤ Nature of business :

Eltech Services Pvt. Ltd. (ESPL) was founded in the year 2004 with an aim to design, manufacture, supply and install products for use in cleanrooms of Pharma and other industries. The systems are supplied with MODBUS interface for connecting to BMS. ESPL is a strong believer in 'Make-In-India' philosophy. ESPL exports its products to US, Europe, Middle East, Africa and South East Asia.

➤ Product Portfolio :

Microcontroller based Door Interlock Systems with/without MODBUS,
Pass Box Interlocking Systems with / without Display,
Air Shower Controllers,
GPS / NTP server based Digital Clocks in network (LAN / Wireless),
Countdown Timers,
TPH displays and Indicators

All items are available in **Flame Proof and non-Flame Proof** versions to suit the application areas.

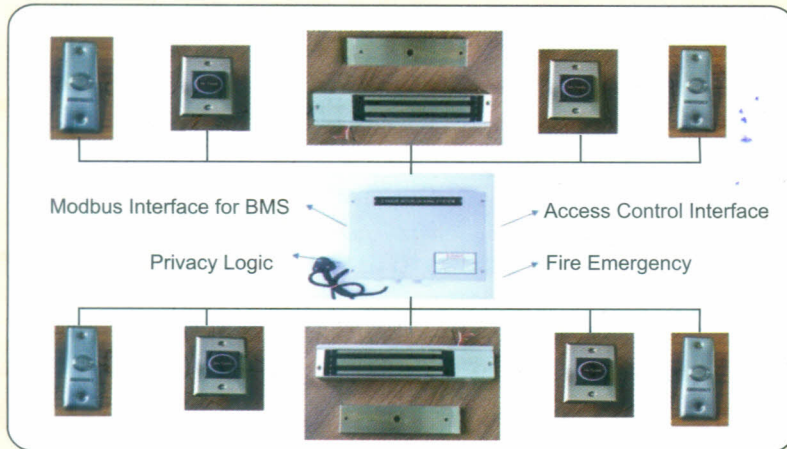

➤ Design Capabilities :

Through continuous efforts in Research and Development, ESPL has introduced several types of components for customers. Backed by ISO9001-2015 quality system, and practices, ESPL ensures that duly tested products are supplied on time. The documentation is well maintained with product history and configuration. Integration with third party access control systems and control of different types of doors, viz. swing doors / sliding doors / rolling shutters / rapid doors etc., of different vendors, without disturbing OEM features are strengths of ESPL.

➤ Team :

Well trained team of Engineers and technicians form the back bone of ESPL in supply, installation and maintenance of products at customer premises.

Typical 2 Door Interlocking System

Flameproof No Touch Keypads

Passbox Interlocking System

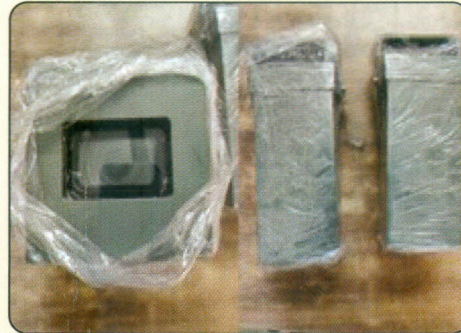

Airshower Controllers

Cleanroom Clocks - Wireless

Flameproof EDR Switch

Flameproof Camera Housing

Flameproof Door Sensor
